

SHIP EFFICIENCY

by STG 9th International Conference
Hamburg 25–26 September 2023

Solutions to manage CO₂ and profit

Save the Date, 25–26 September 2023 in Hamburg

e-fuels which to choose?

Operational Efficiency

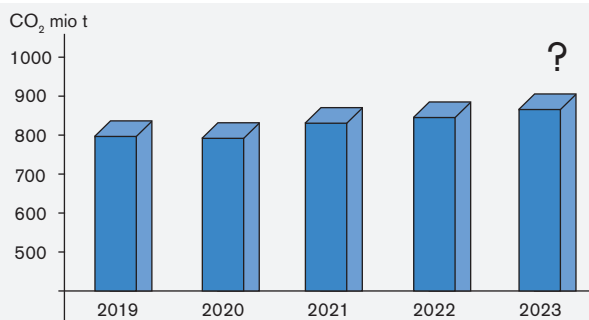

- countering higher fuel cost by better efficiency
- new parameters for design and operation
- how to benefit from new regulations

complexity of future bunkering

Logistical Efficiency

- new challenges for the transport chain
- commercial legal and financial aspects
- logistics of future bunkering

CO₂ emissions in shipping rising again?

Environmental Efficiency

- multi-fuel and hybrid concepts
- new regulations
- vision versus reality
