

**Merten Stein**

## **CV**

Merten Stein is a senior consultant with 20 years of management and strategy consulting experience, and Head of Shipping Advisory West Europe, DNV Maritime in Hamburg. Before joining DNV in 2012, he worked as Management Consultant for Booz & Company.

Merten has a track record of more than 60 consulting projects. Today, the majority of his work relates to feasibility, cost impact, availability and market potential of alternative fuels and technologies in the maritime industry. Delivering insights from blending commercial, technical and regulatory expertise is a major theme of his work.

His clients are shipping companies, port & terminal operators, investors, suppliers, energy providers and governmental entities facing the maritime sector. Merten served private and governmental/public clients in Europe, Middle East and Asia. He holds an Engineering diploma from TU Braunschweig/Germany and a MSc in Engineering from Georgia Institute of Technology, Atlanta/USA.
