

Captain Wolfram Guntermann
Director Environmental Management, Hapag-Lloyd AG

Captain Wolfram Guntermann graduated with his Masters Licence at the Marine Polytechnic Elfleth/Germany in combination with a scholarship at the Plymouth Polytechnic of Marine Science. He also received his Engineers Licence at the Hamburg Polytechnic in order to serve as Ship Operation Officer holding a dual licence.

After having set his feet for the first time on deck a vessel in 1979 he went through the ranks receiving his first command as Master in 1996. He also took various assignments ashore as Trio Tonnage Center London and Director Marine Operations in the Hapag-Lloyd America Office in Piscataway/New Jersey for almost nine years. Upon repatriation to the Hamburg based Headquarters he worked as Director Projects (Passenger Vessel MV Europa 2).

With the current function as Director Environmental Management a lot of challenging opportunities are emerging in light of new environmental legislation and initiatives.
